

A Message from Our Director of Training Operations

Whether you manage compliance for a healthcare system, a manufacturing floor, a childcare center, a fitness center, or a security firm, you know the challenge: keeping every employee current on their compliance training and certifications. And you need to do it without draining the budget or pulling people off the job for days at a time. That's the problem ProTrainings has solved, and I'd like to show you how we can help you and your team.

Who We Are

ProTrainings is a nationally recognized provider of health, safety, and compliance training operating for over 20 years. Our First Aid and CPR/AED curriculum follows the most current ECC/ILCOR standards and meets or exceeds American Heart Association (AHA) recommended guidelines, whether your staff need healthcare provider level BLS or lay rescuer CPR, AED, and First Aid. We also provide additional compliance education such as Bloodborne Pathogens, Fire Safety, HazCom, and more for the Joint Commission, OSHA, and hundreds of state licensing boards and regulatory bodies across industries; many with continuing education credits.

If you're not yet familiar with us, we're happy to share our letters of acceptance, references, and curriculum for your review at any time.

How It Works

Our customizable training program gives your organization the best of both worlds: the flexibility of online learning paired with verified hands-on skills evaluation. Here's the process:

- 1. Training**
 - **Online training & exam:** Employees complete coursework at their own pace, on their own schedule.
 - **Virtual, live instructor training & exam:** Employees can attend a live, instructor-led course virtually, which supports distributed workforces.
 - **In-person instructor training & exam:** Employees can attend a live, in-person instructor-led course at your facility or a local training center.
- 2. Hands-on Skills Evaluation** - Completed by a ProTrainings certified Instructor or Skills Evaluator
 - **Remote:** Via live online session
 - **In-person:** From our nationwide Instructor Network or your internal ProTrainings-certified Skills Evaluator

This flexibility means less time away from the job, fewer scheduling headaches, lower costs, and training that meets your employees where they are.

What You Get as an Organization

Administrative Dashboard: When you partner with ProTrainings, you gain access to an administrative dashboard that puts compliance management in your hands. No more spreadsheets. *No more scrambling before an audit.*

- **Real-time Reporting:** Instantly track progress and completion status across your entire organization
- **Automated Compliance:** System-generated reminders ensure certifications never lapse
- **Seamless Scheduling:** Integrated support to quickly connect employees with a Skills Evaluator
- **Flexible Billing:** Payment options tailored to your organization's needs and current payment processes

LMS Integration: Automatically sync training data with your existing Learning Management System (LMS) to eliminate manual entry and keep all your records in one place.

Why It Matters

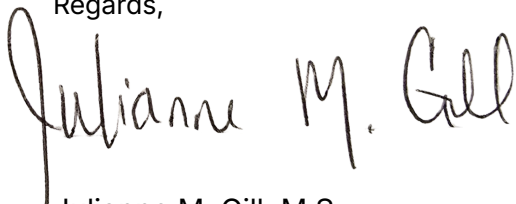

- **1K+** national organizations and state licensing boards accept our certifications
- **3M+** training certifications issued
- **4.6** ★ satisfaction rating from over 700,000 learners
- Cost effective and transparent pricing to fit your budget and requirements

Next Steps

Our team would welcome the opportunity to walk you through our programs and discuss how ProTrainings can simplify health, safety, and compliance training for your organization. To review our curriculum, confirm regulatory acceptance for your specific requirements, or develop a custom pricing proposal, please connect with us:
