

**ProTrainings Theoretical Assessment for the TQUK Level 2 Award in Cardiopulmonary Resuscitation and Automated External Defibrillation (RQF) [one per learner]**

<b>Centre Name:</b>	<b>Learner Name:</b>	<b>Date:</b>

<b>1) List the four stages of the 'Chain of Survival'. (LO1.1)</b>		<b>Outcome:</b>
<u>1.</u>	<u>2.</u>	
<u>3.</u>	<u>4.</u>	

<b>2) How would you know that you have to start CPR? (LO1.2)</b>	<b>Outcome:</b>

<b>3) Why is early intervention necessary? (LO1.3)</b>	<b>Outcome:</b>

<b>4) List the other two types of cardiopulmonary arrest (LO1.4)</b>	<b>Outcome:</b>
1. <i>Bradycardia</i>	
2.	
3.	

<b>5) What differences are there when using an AED unit on a child? (LO2.6)</b>	<b>Outcome:</b>

<b>6) What risks to the patient are there, when placing them in the recovery position? (LO3.2)</b>	<b>Outcome:</b>

<b>7) How would you handover to a second rescuer and what would you have to tell them? (LO3.3)</b>	<b>Outcome:</b>

<b>8) When would a defibrillator battery require changing? (LO4.1)</b>	<b>Outcome:</b>

**ProTrainings Theoretical Assessment for the TQUK Level 2 Award in Cardiopulmonary Resuscitation and Automated External Defibrillation (RQF) [one per learner]**

<b>9) How would you know when electrode pads need replacing? (LO4.2)</b>	<b>Outcome:</b>

<b>10) What safety considerations are there when using an AED (LO5.1)</b>	<b>Outcome:</b>

**Declaration**

This confirms that the learner has completed both the **theoretical** and **practical** elements of this qualification to the required standard. All incorrect answers have been reviewed and the learner now knows the correct response to all of the questions above.
